

Welcome to Hanseatic Energy Hub

a future oriented project in Stade, Germany

A short introduction to our planned LNG terminal and the start of our Open Season.
Please contact our commercial team for detailed information on
sales@hanseatic-energy-hub.de

Hanseatic Energy Hub „in a nutshell“

Combining location and concept for synergies and future energy options

2 jetties allowing tankers up to **Q-Max size** and a dedicated small-scale jetty

Up to **12 bcm/a** regas
480,000m³ storage provides **significant flexibility**
Large-scale reloading offered

250,000m² area on **industrial site** minimising environmental impact

Proximity to Port of Hamburg is ideal for **bunkering** services.
In addition, **Truck-loading** & rail-loading offered

Zero-emissions terminal through Energetic coupling with Dow for LNG-regasification
Potential for **future energy solutions** and salt cavern storage

Short distance to tie into network to access new single German market area + potential local gas demand for up to 1 bcm/a

Germany & LNG

Largest gas demand in Europe, demand growing

- ▶ phase-out of nuclear and coal-based generation
- ▶ new gas-fired power plants to back up the renewables
- ▶ increased need for flexibility

Diversification of gas supply sources:

- ▶ enhanced competition, Security of Supply

Interconnectivity

- ▶ LNG into Germany can supply NWE and CEE

NCG and Gaspool market areas merging 1 Oct 2021

- ▶ new LNG infrastructure in Germany could further increase liquidity

Small scale: bunkering and mobility growing

- ▶ Delivery to non-pipeline regions, reducing emissions and air pollution

Large-scale and small-scale terminal

Offering products that meet the different customer needs

▶ **Storage:** cryogenic tanks

▶ **Import:** unloading large-scale and small-scale ships

▶ **Export as gas:** regasified LNG via pipeline to grid network and local demand

▶ **Export as LNG:**

- ▶ truck-loading
- ▶ rail-loading
- ▶ small-scale reload
- ▶ large-scale reload

Open Season

Indicative timeline

Disclaimer

Hanseatic Energy Hub GmbH (HEH) is a company incorporated under the laws of Germany. This presentation has been prepared by HEH solely for informational purposes and for the exclusive use of the party to whom HEH has delivered this presentation (together with its subsidiaries and affiliates (Receiver)). This presentation contains selected information in connection with the tender process regarding the planned LNG import terminal in Stade, Germany (Project). The sole purpose of this presentation is to assist Receiver in deciding whether it wishes to proceed with an investigation of a possible tender in relation to the acquisition of capacity of the Project (Tender). This presentation is not intended to form the basis of any decision to purchase capacity in the Project. In any event, during all stages of the Tender, the Receiver will investigate all relevant facts in its own responsibility and will take any decision in connection with the Tender independently from this presentation and the information contained therein.

HEH or its affiliates, do not make any representation or warranty, either expressed or implied, as to the accuracy, completeness, reasonableness or reliability of the information contained in this presentation, neither does the content comply with any national or international standards. HEH and its affiliates expressly disclaims any and all liability for any direct or consequential losses relating or resulting from the use of this presentation.

No person has been authorized to give any information or to make any representation concerning HEH and its interests in the Project described herein other than the information contained in this presentation, and if made or given, such information or representation must not be relied upon as having been authorized by HEH. Under no circumstances is this document to be construed as a prospectus, offering memorandum or advertisement. This presentation, and the information contemplated herein, does not constitute an offer to sell or a solicitation of an offer to purchase any shares or any securities in any jurisdiction.

No representation is made regarding the legality of a participation by the Receiver in a potential Tender under applicable laws including, but not limited to, any securities laws. The Receiver should not construe the contents of this presentation as legal, tax, accounting or investment advice or a recommendation of any kind. The Receiver should consult its own counsel, tax and financial advisors as to legal and related matters concerning any transaction described herein. This presentation does not purport to be all-inclusive or to contain all of the information that the Receiver may require. No investment, divestment or other financial decisions or actions should be based on the information in this presentation.

This presentation and the information contained herein is highly confidential and has been prepared solely for the informational use of the Receiver. Distribution of this presentation to any person other than the Receiver and those persons retained to advise the Receiver, who agree to maintain the confidentiality of this material and be bound by the limitations outlined herein, is unauthorized. This material must not be copied, reproduced, distributed or passed to others at any time without the prior written consent of HEH. By accepting the delivery of this presentation, you agree to the foregoing.

This presentation includes certain observations, assumptions, statements, estimates and projections as to future events and thus involves significant elements of subjective judgment and analysis. Such statements, estimates and projections reflect certain assumptions and anticipated results; such assumptions and results may or may not prove to be correct. Actual results may differ from such statements, estimates and projections and such differences may be material. Such estimates and projections are inherently subject to a variety of risks and uncertainties that could cause actual results to differ materially from those projected. Such risks and uncertainties include general economic and business conditions, competition, changes in political, social and economic conditions, and possible changes in the regulatory structure, weather, climate, customer preferences and various other matters, many of which are beyond the control of HEH, as applicable. Such forward-looking statements are necessarily dependent on assumptions, data or methods that may be incorrect or imprecise and that may be incapable of being realized. There can be no assurances that actual events will not differ materially from those assumed or projected. In the event any of the assumptions used in this presentation do not prove to be true, results are likely to vary substantially from those discussed herein and such variations may be material. HEH does not undertake to update or revise any of the observations, assumptions, projections or forward-looking statements contained herein or any other information contained herein, even if it becomes clear that they will not be realized or are otherwise inaccurate. The delivery of this document/file shall not under any circumstances imply that there has been no change in the affairs of HEH or that the information set forth herein is correct at any date subsequent to the date of this presentation or the date at which the information was provided. The information contemplated in this document/file is in summary form and thus does not contain all relevant and material information relating to the matters contemplated herein.
